

CONSENT FOR PROCEDURE, INTERVENTION OR TREATMENT

Dr. _____ discussed with me my condition and the recommended surgical, medical or
(Attending Physician/Primary Operator)

diagnostic procedure(s) to be performed. This discussion was intended to ensure that I had the opportunity to receive the information necessary to make a reasoned and informed decision whether or not to consent to the procedure(s). This document is as a written confirmation of that discussion and contains some of the more significant medical information discussed.

1. Based on this discussion, I understand that the following condition(s) may exist in my case:

2. I understand that the procedure(s) proposed for treating or diagnosing my condition(s) is (are): (Explain in lay terms.)

Site: _____ Side: ☐ Left ☐ Right ☐ Bilateral

3. I understand that Dr. _____ will be the attending physician/primary operator during the procedure; and
Dr. _____ will be a second primary operator.

4. I have been informed of the:

A. Purpose and reasonably expected benefits of the procedure.

B. Available alternatives, some of which include:

C. Probability of success or failure of the procedure and any major issues with recuperation.

D. Reasonably anticipated consequences if the procedure is not performed.

5. I understand the necessity for the administration of anesthesia and blood transfusions, when deemed appropriate.

I understand that the administration of anesthesia and the administration of blood involve risk to some degree. These risks may include the potential for infection, allergic reactions, bleeding, blood clots, brain damage, and even loss of bodily function or life.

I have also been informed there may be additional risks that could occur in connection with this particular procedure including:

6. I am aware that in the practice of medicine other unexpected risks or complications not discussed may occur. I also understand that during the course of the procedure(s), unforeseen conditions may be revealed requiring the performance of additional procedures, and I authorize such procedures to be performed. I further acknowledge that no guarantees or promises have been made to me concerning the results of these procedures.

7. I authorize and consent to the taking of photographs, videos or films during the procedure and their use for teaching, research and education purposes, including potential usage on affiliated websites. I understand that any photographs, videos or films made available on public websites, such as the Tufts Medical Center website, will not include identifying information, such as my name, date of birth, place of residence, date of procedure, or medical record number.

CONSENT FOR PROCEDURE, INTERVENTION OR TREATMENT

8. I authorize and consent to the disposal of tissue, fluid and bone, if any, which may be removed as part of the procedure(s). I understand that such tissue, fluid and/or bone may be photographed, and/or used for research, scientific, or teaching purposes.
9. I have been given ample opportunity to ask questions about my condition, alternative forms of treatment, risks of no treatment, the procedures to be used and risks involved. All of my questions have been answered to my satisfaction, and I believe that I have sufficient information to provide informed consent.
10. I am aware that occasionally there may be visiting surgeons or health care professionals may be present to observe techniques.
11. I am aware that the following physicians and physician extenders may be participating in or present during the course of this procedure under the direct supervision of the attending physician/primary operator for educational and training purposes. I understand that unanticipated changes may occur and all physicians and physician extenders who participate in my procedure will be documented within my medical record.

To be completed upon identification of participating individuals

Patient Initials	Date	Time

12. I am aware that to facilitate the performance of surgical techniques, surgeons sometimes participate in the use and design of new equipment, pharmaceutical, biotechnology, drugs or medical devices. I understand that representatives from health care related companies may be present during the procedure to advise on the use of equipment or to observe surgery and I authorize the presence of such visitors.
13. I am aware that there may be circumstances that would require my physician to disclose information about me to public health agencies. These may be types of injury, for example, a gunshot wound or a communicable disease such as tuberculosis.

I have read and fully understand the contents of this form and authorize Dr. _____ and associate physicians and physician extenders to participate in, perform and/or assist in the procedures described above. I certify that the information referred to above was given to me, that all of my questions were answered to my satisfaction and that all blanks and statements requiring insertion or completion, with the exception of the names of the physician extenders, were completed before I signed my name below.

I have discussed the surgical/procedural plan with the patient, or patient's representative, who has demonstrated capacity, and reviewed the consent. I have discussed the planned presence and roles of other members of the surgical/procedural team. I have explained that I will be present for all critical portions of the procedure to perform any essential elements and that I will be assisted, as required, by associate physicians and physician extenders. I have notified the patient or patient's representative that the assisting team members will be identified and documented just prior to the procedure. The names of all participants will be documented within the operative/procedure note. I will be actively involved and/or freely available for the duration of the planned procedure. I've answered all required patient or patient's representative's questions to their satisfaction.
